

Summer 2022

Dear Parents:

All sixth-grade students are placed into 6th Grade Mathematics unless they have met the following requirements. If these requirements are met, the student is then placed in Pre-Algebra in 6th grade.

1. Students with a Spring Math MAP score in the 80th percentile qualify to take the Pre-Algebra placement test. Newly enrolled students who have equivalent scores on standardized testing qualify to take the placement test.
2. Students who score above 85% on the placement test may be placed into Pre-Algebra.

Please note, parents can request to have their child take the placement test without scoring in the 80th percentile on their MAP test, but it is probable that they will not score high enough on the placement test. Parents wishing to have their child take the placement test must do so by June 30th, 2022.

If you have any questions or concerns please feel free to contact the Middle School office.

Sincerely,

Ben Peddicord
